

FOR IMMEDIATE RELEASE

2 September 2009

## **TINCI WINS NEW FGD CONTRACT**

The Directors of Tinci Holdings Ltd. ("the Company" or "Tinci") (TINCI), the AIM quoted environmental engineering company, today announces that the Company has successfully tendered for a RMB 43.9 million contract with Sinopec's Xinjiang Dushanzi operation in Xinjiang province. The contract is for three 46MW and two 70MW installations and will use Tinci Flue Gas Desulfurization ("TFGD") technology. This project is the third TFGD desulfurization project which the Company has won in the petrochemical sector in China and is expected to take approximately twelve months to complete. The Company has previously won the Lanzhou project with China Oil and the Luoyang project with Sinopec. The Directors believe that Tinci's TFGD technology is well regarded by both China Oil and Sinopec.

### **ABOUT TINCI HOLDINGS LTD**

Tinci Holdings Ltd. is the parent company of Tinci Sanhe Environmental Engineering Co. Ltd., an environmental engineering company founded in October 2001, which is primarily involved in developing, manufacturing and installing flue gas desulphurisation (FGD) systems for reducing sulphur dioxide (SO<sub>2</sub>) emissions from coal-fired power stations and large industrial boilers in China.

The Company's shares are traded on the AIM market of the London Stock Exchange under the symbol 'TINCI'.
